ANASTASIYA MUZYCHENKO

FRONT-END (REACT) DEVELOPER

Birth date: October 15, 1997

GOALS

Hi, I'm a Front-end developer with good knowledge of how the Web works. Interested by web applications and client-side technologies and everything by the other side. I enjoy developing responsive, user-friendly applications with aesthetic design. I am committed to using React to create modern, fast, and capable application.

I strive to gain more commercial experience in this field, for this reason I'm currently looking for a new opportunity develop and progress as a team, as well as have fun and learn along the way. Please feel free to contact me by email or through instant messengers at any time.
